YEAR IN REVIEW

CHOICE NEIGHBORHOOD INITIATIVE

2020

USI URBAN STRATEGIES, INC.
Families at the Center of Results
LETTER FROM THE SENIOR PROJECT MANAGER
tahira taqi

What a year! We went into 2020 ready to hit the ground running -- but as we know, COVID had other plans. It was a year met with challenges, loss, frustration and growth, but through it all, I am grateful for the authentic and trusting relationships with our partners and residents that were strengthened during this tumultuous year. Despite the uncertainty of 2020, with the help of our dedicated partners, residents, stakeholders and case management team, we were still able to advance equitable results for families. I look forward to a new year and opportunities to collaborate and innovate with each of you to help our families thrive. A huge thank you for your continued partnership and commitment to our Choice Neighborhood families.

With deep appreciation,
Tahira Taqi

LETTER FROM THE REGIONAL VICE PRESIDENT
alecia leonard

In looking back on 2020, the word that keeps coming to mind is resilient. The resilience of the families we have the privilege to work alongside has shown up this year like never before in the way neighbors have checked in and supported one another, found creative solutions to really challenging circumstances, and continued to achieve their goals despite systemic inequities. Resilience has also been in full display with our team and partners who never missed a beat adjusting to new processes and protocols to ensure safety. Partners emerged and adapted to meet new needs and remove barriers created or magnified by the pandemic.

As we head into 2021, I am extremely hopeful that we will bring all that has been learned throughout this last year to bear in our collective pursuit of All RiverWest families being stable and thriving. Thank you for your ongoing partnership and commitment to the families served through the RiverWest Choice Neighborhoods Initiative.

With Gratitude,
Alecia Leonard
MISSION: ALL CHILDREN AND FAMILIES WILL BE STABLE AND THRIVING
2020: A TIMELINE

January
- All People Partner Meeting
- Relocation & Resident Meeting

March
- Resident Job Fair onsite
- Brightwaters resident meeting

- Discovery Lab kit dropoff

September
- Food & resource delivery, weekly
- Eugene Field Pre-K enrollment event
- Awarded TSET grant

November
- Brightwater resident meeting

October
- Brightwater resident meeting & Halloween gift bags

December
- Brightwater resident meeting
- Holiday photos & raffle giveaway onsite and for relocated families
- Discovery Lab kit dropoff
- Awarded Tulsa Area United Way grant
- Food delivery to kids at Brightwaters with the Food Bank
COVID RESPONSE

When COVID hit and things started shutting down in March 2020, our first response was to go into resource deployment mode as we shifted our case management model to focus on COVID support for Choice families. Our case management team made weekly calls to families, knowing that COVID impacted all aspects of our families’ lives, including:

- **Basic Needs Compromised**: Food, supplies, Rental and utility payments, toiletries, prescription drug assistance
- **Routines disrupted, Need to feel Safe**: Coping strategies, stress management referrals, unemployment and employment support, disinfectants/face masks
- **Boredom, Loneliness**: Ways to connect with others (e.g., computer and internet access), staff videos, domestic violence referrals
- **Parent Esteem**: Homework help, family literacy, be self-reliant
- **Actualization - Stability**: Covid-19 tax checks, Census

USI had a good grasp of our families’ needs through consistent communication between case managers and residents. **With the wonderful support provided by our partners**, USI was able to provide necessities to families throughout COVID.

- **Paid $17,000 in rent & utility payments** to support families with housing stability, thanks to a barrier removal fund from the Tulsa Area United Way
- **Distributed 22,500 pounds of food** donated by The Food Bank, Gathering Place and other local partners
- **Delivered over 650 rolls of toilet paper and almost 325 household cleaning items** to families
- **Provided Social Emotional Learnings Kits** from The Opportunity Project and **at-home learning kits** from Discovery Lab
- **Over-the-Phone safety planning and stress management** with families feeling overwhelmed by social distancing and staying at home.
- **Provided student access to internet and computer technology** to support their distance learning requirements for school
- **Helped families access reliable school district information to help students with enrollment, virtual learning and homework assistance**
- **JobsFirst program accommodated new barriers and supported participants to continue working towards employment goals** in everchanging economic circumstances.

A huge thank you to our partners for providing resources, household necessities and support needed by families throughout COVID. USI could not have done this work without our partners. Thank you.
OUR RESIDENTS

804 residents (313 households) actively in case management
- 393 adults, 18+ years old
- 8 adults, 65+ years old
- 411 children, 0-18 years old
7.6% of residents are Hispanic/Latino

- Male: 35%
- Female: 65%

- African American: 40.4%
- White: 31%
- American Indian or Alaska Native: 11.7%
