

USI | URBAN STRATEGIES, INC.
Families at the Center of Results

Kristie Stutler, M.S.W. Southern Regional Vice President

Kristie Stutler is Regional Vice President for Urban Strategies, Inc. who works with staff across the southern region using a results-based approach to improve conditions of well-being for families served by Urban Strategies.

Kristie believes that improving conditions in distressed, urban communities not only requires commitment to the development of the individual, the family and the community,

but also a commitment to challenging inequitable system structures.

Kristie has worked with system-involved youth for nearly 20 years. As the Administrative Coordinator, she was the lead for the Department of Juvenile Justice on juvenile justice reform in Kentucky. Through this reform, the number of youth in out-of-home care in the juvenile justice system decreased by 42% over two years.

Kristie was selected to serve in the tenth class of the Annie E. Casey Children and Families Fellowship program. She is trained in results-based facilitation and results-based accountability. She has 20 years of professional development experience with expertise in trainings on leadership, trauma, and disproportionate minority contact.

Kristie holds a Bachelor's Degree in Psychology from the University of Louisville and a Master's Degree in Social Work from the Kent School of Social Work at the University of Louisville.
